

## OPPORTUNITIES

What opportunities might come from sharing your perceptions, concerns and feelings in a public civic dialogue?

# FAIRNESS TOOLKIT

## PARTICIPANT VALUE PERCEPTION

The toolkit includes two tools designed to stimulate a public, civic dialogue:

*TrustScapes* – worksheets for users to share their perceptions, feelings and concerns about bias, trust and fairness in algorithmic systems and

and *MetaMaps* – worksheets for stakeholders to respond to specific TrustScapes

## COSTS

What might the costs be if you don't take part in sharing your views in such a public civic dialogue?

## OTHER FACTORS

What other factors might come into play?

## MOTIVATIONS

Why should you share your perceptions and feelings in a TrustScape?

## VALUE

What value might taking part bring you?
